FENTON'S PATENT FLINT ENAM-FENTON'S PATENT FLINT ENAMEL WARE. (composed of Fint, Feldspar and Quartz.,)
made at Bennington, Vt. Dépôt, corner of Palton and Johnson six Brooklyn. Sold by ALBERT BRETT, the sole
Agent for Long Island, Staten Island, and the State of
Rhode Island. The above Ware is a new and most beantful invention; it is much stronger than any other Crockery,
also being entirely fire-proof it has many advantages over
any Crockery now made. The ename is composed of pure
fint, which makes it very valuable for cooking purposes, as
there will be no danger of poison from any article made
with this enamel. The Albany Journal says. "This beautiful
Ware is attracting very general attention. The coloring is
indescribably beautiful. The most delicate tints are obtained, and the peculiar mode of their application gives them a
permanance as enduring as fint itself. The most highly
polished rosewood, agate, or marble, is not susceptible of a
more exquisite initsh than is given to the most common
acticle produced by this invention. If, instead of being as
cleap as ordinary Crockery, this Ware was as expensive
as the richest China, it would be adopted as the fashion;
but being chesp, as well as ornamental, it will come into
general use wherever beauty, combined with utility, is appreclaied." All orders promptly attended to, and sent to
any part of Brooklyn or New-York.

THE BEST PURIFIER of the BLOOD.

—Rev. Dr. STICKLAND'S AMERICAN YAMILY PILLS are undoubtedly the best vegetable compound ever discovered for the cure of Liver Complaints, Jundice, Piles, Costiveness. Dyspepsia. Sallow Complexion. Sick Headache, Bitter Taste, Dropsy, Kidney Affections, Gravel, Rheumatism. Intermittent Fever and Ague, Influenza, Colds, &c. Being in strict accordance with the unalterable laws of creative Providence and a knowledge of Anatomy and Physiology. The Doctor is convinced that the same all-wise being has created in the vegetable world a remedy for every disease that flesh is heir to. Anatomy teaches that the human body contains many important organs called glands, each of which is employed in secreting from the blood its own appropriate fluid, the chief of which is the Liver, Kidneys, Salivary and Giandiar bodies connected with the porce of the skin. The Liver and Salvary Glands secree from the blood those fluids that carry on the work of digestion, and thus promote the healthy action of the bowels.—The kidneys and skin secrete from the blood those deliaterious impurities which, if obstructed, will produce many diseases and health be entirely impaired. Now, this vegetable compound attacks the liver, stimulates it to action, removes its diseases, corrects the billious and digestive organs, causing the kidneys to act and opening the porces of the skin.—Hence the "Purification of the Blood," whereby perfect health is restored. For convincing proof of the above the Doctor requests a perusal of his pamphiet, setting forth most fully the philosophy of their action, with full directions and certificates of unparalleled cures. Office 135 Falton-st. New-York, and sold by venders of medicine generally.
